

let me introduce myself. My name is Dmytro Kuzmenko, I am a scientist from Ukraine.

I like to do research, so after receiving my master's degree, I entered graduate school.

During postgraduate studies, I combined studies with the work of an assistant of the Department of Mining Machines and Equipment which provided an opportunity to combine scientific activity with pedagogical activity and gain experience in teaching activity.

After completing postgraduate studies, i defended a thesis and received a degree Candidate of Engineering Sciences.

The experience of scientific and pedagogical work at the university is 12 years. I was engaged in research work at mining enterprises in Kryvyi Rih. Computer skills: MS Office, 3-D modeling programs: Compass, Solid Works.

I strive to constantly improve the educational process, in 2021 I completed a training course and received a certificate of expert on accreditation of educational programs of the NATIONAL AGENCY for HIGHER EDUCATION QUALITY ASSURANCE (UKRAINE).

I am very organized and disciplined. I believe that having such important qualities as responsibility, determination, hard work and perseverance will help me to successfully show myself at work.

Please see my resume, which is attached to the letter.

Thank you for your attention, I promise that I will do everything possible to justify your trust.
